About

As a seasoned Front-end developer with 5 years of experience, I am passionate about the entire Front-end spectrum and excel at working on ambitious projects with forward-thinking teams. I specialize in creating innovative web solutions using React, Next.js, TypeScript, and related technologies, while also developing custom Chrome extensions that enhance team productivity.

Core Competencies:

- **Web Application Development**: Expertise in building scalable and maintainable single-page applications (SPAs) using React.js, Next.js, and TypeScript.
- **End-to-End Development**: Proficient in managing the full development cycle, from UX/UI design to testing and production deployment.
- **Custom Tools & Extensions**: Developed innovative Chrome extensions and dynamic tools that boost team productivity and streamline workflows.
- **Agile Methodologies**: Adept at working in Agile environments, leveraging tools like Jira and Trello to drive efficient project delivery.
- **Cross-Browser Compatibility:** Proficient in testing front-end code across multiple browsers to ensure seamless user experiences.
- **Quality Assurance:** Focused on identifying and resolving bugs and technical issues both pre- and post-deployment.
- **Web Design & Development Principles:** Committed to implementing best web design and development practices to build robust software solutions.
- **Microsoft Dynamics Solutions:** Capable of writing customized solutions for Microsoft Dynamics.

Work Experience

UDS SYSTEMS | Middle React Developer

Kyiv, Ukraine | August 2021 – Present

- Developed 10+ advanced tools for Microsoft Dynamics 365, significantly improving client efficiency.
- Created a complex Chrome extension that supercharged team productivity.
- Optimized the development process by implementing strategic Git practices, reducing code merge conflicts.
- Collaborated seamlessly across four countries (Finland, Germany, Switzerland, and Ukraine),
- Refined our development workflow by implementing strategic Git practices, cutting code merge conflicts.
- Tailored Microsoft Dynamics solutions that transformed enterprise client operations.

Pragmatech | Front-end developer

Baku, Azerbaijan | January 2018 – March 2020

- Primarily focused on developing e-commerce projects and providing support for existing applications.
- Taught students the fundamentals of becoming a front-end developer.
